

## Control Panel Solutions

Design Group provides industrial control panel solutions for packaging, process, facilities, utilities, and other industrial applications through our ControlTech Automation division. We strive to earn repeat business by offering quality, value, and service above and beyond our competitors.

Our designers are degreed engineers, professionals, and highly skilled electrical technicians that bring extensive experience to the design and implementation of control panel solutions for a wide range of industrial applications.

*Design Group operates from 45+ offices in the US and India providing engineering, consulting, and technical services to the world's leading companies in the Food & Beverage, Life Sciences, Advanced Technology, Industrial, and other market sectors. Our nearly 1500 technical and engineering experts have direct industry experience in industrial automation, control system integration, facility and process engineering, architecture, construction management, regulatory compliance, enterprise technology, and other consulting services.*

### Control Panel Design

- Focus on safety, accuracy, value, and reliability
- FAT services based on custom FAT documents

### Control Panel Manufacturing

- 30+ years experience
- State-of-the-art, multi-shift facility
- Long-standing partnerships with leading technology suppliers

### Certifications & Inspections

- UL508A Self Certification for Domestic Control Assemblies
- UL698A Self Certification for Hazardous Location Applications
- CSA22.2 Self Certification for Shipments to Canada
- International declaration of conformity
- CE
- ATEX
- IECex
- CCC (China)
- 4.v. Gost (Russia)

### Project Management

- Single point of contact
- Project Specification
- Schedule Development and Adherence
- Parts Purchasing and Expediting
- Detailed Design Review
- FAT and Quality Control Assurance Coordination
