

Business Overview

Design Group operates from over 45 global offices in the US and India providing engineering, consulting and technical services to the world's leading companies in the Food & Beverage, Life Sciences, Industrial, and other market sectors. Our nearly 1500 technical and engineering specialists have direct industry experience in industrial automation, control system integration, facility and process engineering, architecture, construction management, regulatory compliance, enterprise technology, and other consulting services.

Exceptional People, Compelling Solutions

Industries

LIFE SCIENCES

FOOD & BEVERAGE

INDUSTRIAL

SEMICONDUCTOR

HOUSEHOLD & PERSONAL CARE

OIL & GAS

INDUSTRIAL MACHINERY & EQUIPMENT

Packaging Systems

Design Group is a premier system integrator for a wide range of filling and packaging line solutions with extensive experience in material handling, printing, labeling, inspection, secondary packaging, robotics and management information systems.

- Master Planning
- Package Technology
- Reliability Engineering
- Systems Integration
- Project Support Services
- Machine Safety
- Project Management
- Industrial Automation

Architecture/Engineering Process

Our process-driven engineering and architectural services improve operational efficiency, expand capacities, improve operational workflow, and reduce operating cost.

- Facility Planning
- Supply Chain
- Facility Condition Assessment
- Real Estate Solutions
- Architecture & Engineering
- Process Design Approach
- Process Automation
- Waste Water Solutions
- Procurement
- Equipment, Parts, & Distribution

Construction

We develop integrated solutions from concept design through construction documents utilizing our full service, in-house engineering team.

- Pre-Construction
- Construction Phase
- Start Up Phase

Regulatory Compliance

We are a leading supplier of validation, quality engineering, and regulatory consulting services to the biotech, pharmaceutical, and medical device industries.

- Commissioning & Qualification
- Computer System Validation
- Process & Cleaning Validation
- Quality & Regulatory Compliance
- Auditing
- Process Development
- Serialization

Control System Integration

One of the largest System Integrators in the US providing automation and CSI services.

- Electrical Design
- Control Panels
- Packaging Controls
- Process Controls
- Information Solutions
- Machine Safety
- Performance Improvement
- Network Assessment
- Modernization

Enterprise Technology Consulting

We are uniquely positioned to deliver a fully connected enterprise that drives sustainable business value for the client.

- Strategy & Planning
- Enterprise Solutions
- Analytics
- Supply Chain
- Managed Services

Equipment Design Solutions

Custom solutions to optimize overall engineering and manufacturing costs, maximizing revenue, accelerating time to market, and improving manufacturing efficiency through agile processes.

- Lean Manufacturing
- Redesign
- Retrofit
- Reverse Engineering
- Value Engineering
- Sustaining Engineering
- Sourcing
- Technical Publishing

Integrated Solutions

Delivers complete automated process & packaging systems integrated with utility & facility infrastructure and fully constructed facilities.
