

Product Lifecycle Management

Design Group partners with the largest PLM and Internet of Things (IoT) software vendors and experts in deploying innovative solutions around product lifecycle management, automation, and digital transformation for mid- to large-scale organizations. With over 100 successful PLM implementations, we take pride in helping our clients adopt and utilize PLM systems while moving forward in the digital transformation journey that is aligned with their vision, strategy, business context and culture.

Design Group aims to address today's challenges in a complex life science environment by providing product lifecycle management (PLM) solutions to its client base. PLM is an integrated approach to manage products and related knowledge in a transparent way to improve time-to-market, cross-functional compliance while ensuring end-to-end integrations and driving greater efficiencies.

Design Group operates from 45+ offices in the US and India providing engineering, consulting, and technical services to the world's leading companies in the Food & Beverage, Life Sciences, Advanced Technology, Industrial, and other market sectors. Our nearly 1500 technical and engineering experts have direct industry experience in industrial automation, control system integration, facility and process engineering, architecture, construction management, regulatory compliance, enterprise technology, and other consulting services.
