**Infor 9.2.2 .0 Enhancement Pack is now Available in November 2020**

This enhancement pack includes:
- Order Invoice Entry enhancement
- Lists
- Enterprise Finance (client) availability of multiple IFM functions
- Making Tax Digital (UK)
- Migrate AM to Enterprise Financial

**Planned Releases on the Way**

### Infor XA 9.2 Plus

This future pack will deliver a wide range of additional functionality for Infor XA such as:
- Completely updated HTML5 user interface, compliant with Infor standards, featuring all the power and flexibility of the traditional Power-link XA user interface, with additional enhancements
- Completely rebuilt labor and shop-floor reporting applications and transactions to improve functionality and support enhanced connectivity and reporting capability
- Major enhancements for Enterprise Financials

## What's New with Infor XA ERP?

### Infor XA 9.3

The final enhancement for Release 9 and the largest, with nearly 3,000 system objects that are new or significantly modified. This release will include:

- Fundamental enhancement of all Infor XA materials transactions to support better material visibility, consistency, and standardization of materials-related transactions—and delivering all in fully updated IDF form to support unlimited personalization, extensibility, and security
- User Interface (Net-Link + Ming.le)
  - Complete replacement of Power-Link with Net-Link
  - Customizations to Net-Link, primary user interface of XA
- Enterprise Financials
- Convert minor green screens objects to IDF
- Decommission/Replace Obsolete Products

### Infor XA Release 10

Planning for Release 10 has started. Release 10 will feature many customer-suggested enhancements that have significant support across the customer base.

Design Group's XA team encourages companies to begin their upgrade to the newest releases as soon as possible and not wait. There are many mandatory requirements to get to 9.3. We are excited about Infor's increased investment in Infor XA and the additional functionality.

Contact our Design Group Infor XA experts at info@bwdesigngroup.com to learn more about the Infor XA Roadmap and how we can help you start your journey.
