**Enterprise Solutions**

We partner with leading software providers to deliver end-to-end enterprise and technology solutions that connect the enterprise, enable Smart Manufacturing, and capture the value from your business transformation initiatives.

**ERP - Infor CloudSuite Industrial (SyteLine):** For discrete and process manufacturers with built-in, industry-specific functionalities to meet the unique challenges of various industries and is configurable to meet operational needs. It can be deployed both on-premise and in the cloud.

**ERP - Infor XA:** Extend and maximize the value of the solution. We can customize a Sustainability Package that allows our clients to focus on the business while knowing their ERP is not a risk to their future.

**WMS - Infor CloudSuite WMS** combines core warehouse functionality with labor management, task management, wave management, 3PL management and a 3D visual warehouse.

**PLM - PTC Windchill** is an innovative PLM, automation, and digital transformation solution for clients from various industries.

**Infor Other** - Additional products to extend your system such as Configure Price Quote (CPQ), Birst Analytics, and Field Service & Warranty.

**Professional Services**

Design Group provides a variety of professional services including: Implementation, Integration, Managed Services, Education and Training, Customization, Business Process Assessment, and more.
