Design Group's XA Team is very excited about the changes and enhancements available to XA Users when they upgrade to the newest releases. We encourage you to begin planning the transition now and not only do the mandatory requirements for Release 9.2, but also the suggested requirements that will be mandatory with 9.3. These new releases will get your company ready for Release 10 and the many enhancements coming your way, including Infor OS and Coleman AI, giving you the latest technology.
